Humatics UWB Offer

A back-to-school deal you won't want to miss!

Thank you for being a valued Humatics customer! We're honored to serve you and your research and education needs. As you're gearing up for a new academic year, we've put together something special to help you make the most of your research and classes.

We're here to help you get ready for back-to-school with a deal you won't want to miss!

For a limited time only, you can purchase a Scholar Ranging & Localization Kit and get an additional P440 radio module + accessories (BroadSpec Antenna, Enclosure and USB Battery with cabling) for **FREE!**

Offer is good through September 20, 2019.

Trusted by top universities and labs such as ETH Zürich, MIT, Johns Hopkins, and Tsinghua University, the Humatics Scholar Ranging & Localization Kit uses Ultra-Wideband (UWB) pulsed signaling optimized for two-way time-of-flight (TW-TOF) ranging and communications with 2 CM precision. With our RangeNet software, researchers and students can explore a variety of navigation and tracking applications while learning about networking and 2D/3D microlocation in a fun and interactive way. For more information on our offer, click [HERE](#).

Don't miss your opportunity to take advantage of this limited deal, now through September 20, 2019!
